

MICHAEL GUTIERREZ

for SHPE NATIONAL TREASURER

Michael Gutierrez is an Embedded Software Engineer Staff with Lockheed Martin Aeronautics Company and has been with the company for twelve years. Michael holds a BS in Electrical Engineering from Texas A&M University and an MS in Engineering Management from Southern Methodist University. Michael is a Lifetime member of SHPE and is currently serving his region as the Region V Manager. Michael previously served three years on the SHPE national board of directors (NBOD) and three years as the founding president for the first company-based SHPE chapter, SHPE at LM Aero Fort Worth. As both a chapter president and Regional Vice President, Michael has established, developed and maintained the fiscal responsibilities for both professional chapters and for all of Region V. Michael is currently a member of the SHPE National Finance committee. At work, Michael holds fiscal responsibility as the cost account manager for teams on both the F35 and F16 programs.

My vision for SHPE as National Treasurer is first to continue the legacy of fiscal accountability and responsibility of the organization. I plan on establishing a plan on for usable financial services to offer to all chapters. I will also serve as a responsible member of the NBOD, supporting a vision that improves the organization's infrastructure and builds a foundation for the future.

Continue a legacy of fiscal accountability and responsibility – I will ensure to continue the legacy of work done by current SHPE National Treasurer, Annette Jimenez, and will work to ensure SHPE is financially accountable to the NBOD, the members, and the organization's stakeholders. I will ensure in these challenging economic times, that the organization holds true to a modest financial base and spends money responsibility on programs and services that provide the best return on investment for all stakeholders.

Establish a plan for usable financial services – Having served as a SHPE chapter president and Regional Vice President, I understand the financial struggles that both student and professional chapters across the nation go through to establish financial stability. The most basic of these is the ability for chapters to apply for, obtain, and maintain 501(c)3 status which provides tax exempt status for chapters. I have a plan to develop a set of online tools and resources developed by SHPE national to be a resource to all chapters across the organization.

Serve as a responsible member of the NBOD – As a voting member of the National Board of Directors, I will support an agenda to strengthen the organization's infrastructure. There are still many fundamental services that the organization needs to improve and I will push to ensure that these services are fixed. As a member of the NBOD, I will also continue to support an expansion of the services offered to professionals and will ensure that the services for students are enhanced

Michael Gutierrez is an experienced and respected leader that will work continuously to ensure that SHPE is fiscally accountable and responsible, will enhance SHPE financial services, and will continue to move SHPE in a direction to grow the organization. ***Voting for Michael Gutierrez to be the next SHPE National Treasurer will be a vote for financial stability and responsibility for the entire organization.***
