Greetings!

My name is Chris Wilkie and I am the Chief Executive Officer for SHPE (Society of Hispanic Professional Engineers). As SHPE’s 2022 National Convention approaches, I’m writing to encourage you to support the attendance of your employee.

Over 10,000 SHPE members, partners, and guests are expected to interact during this year’s convention in person in Charlotte from November 2 - 6. The SHPE National Convention is the largest gathering of Hispanic STEM students (undergraduate and graduate), professionals, and faculty in the United States. And we’re so excited to be back together in person this year in Orlando, Florida, after a year of all virtual engagements.

Founded in 1974, SHPE is the leading organization dedicated to empowering the Hispanic community through STEM awareness, access, support, and development. SHPE currently serves more than 13,000 Hispanic STEM students, professionals, and academics through its over 280 student and professional chapters across the country.

The convention will provide your employee with the following valuable opportunities:

- Cutting-edge personal, professional, and leadership-development sessions;
- Inspirational insights from leaders and technical knowledge from subject matter experts from across the country;
- Interactive workshops and thought-provoking discussions;
- Forward-thinking, action-oriented strategies to help professionals take ownership of their careers;
- Skills to help build high-performing teams and foster greater inclusivity;
- Tips for bolstering professional networks, enhancing executive presence, and optimizing personal brand to increase the visibility of your organization;
- Provide an understanding and gain insight to industry roles and best practices, aligning to your area of study (major);
- And much, much more.

For more information regarding the convention, please visit our SHPE National Convention website at shpe.org/2022. SHPE’s National Convention is fundamental to the continued development of your employee’s career. Your support would be greatly appreciated.

Sincerely,

Chris Wilkie
CEO, SHPE
