**Career Fair & Graduate School Expo Entry Info:**

The Career Fair will be held on Thursday and Friday with half of the student attendees having early entry on Thursday and half with early entry on Friday. Those not in the Career Fair would attend workshops or other events and then the access reverses the following day for the other

group. The doors open at 10am for those students with early Career Fair access and will be limited until 2pm. General admittance access will open at 2pm for the final two hours of the day.

This is to help to minimize the number of attendees in the hall to help with line management and COVID protocols. Your access is determined by when you check in onsite at registration. You will be assigned a color at registration that assigns your access for Thursday or Friday. Line up for Career Fair days will be limited to certain times. Please check onsite signage to see final times for line up entry.

The above is only for students. Professionals and graduate students will have unlimited access.

**\*Signature and Ticketed Events:**

Signature events, luncheons, breakfasts, select hospitality suites, and others will be limited to ticket access only. These will open after September 1 for you to add to your registration. Please check the website or newsletter for more details as they become available.

**Virtual Events:**

These events are fully virtual and will not be held during the days of convention. Dates are TBD right now. For additional information please email [events@shpe.org](mailto:events@shpe.org).

- Cybersecurity Competition
- Deans Roundtable
- Faculty Development Symposium
- Pre-College Conference
